FLASH-FORCE

LIGHTING SOLUTIONS FOR PROTECTIVE SHIELDS

weartronic by NICOMATIC

PROTECT

Maintaining a safe Distance

During operations, maintaining a safe distance can help reduce the risk of physical confrontation. Securely mounted on a protective shield, FLASH-FORCE emits a high-intensity light designed to produce a temporary dazzling effect.

FLASH-FORCE features two operating modes: continuous and strobe.

Light as a means of protection

A solution designed to complement the protective equipment of intervention forces, whose performance and operating conditions are subject to operational evaluations by several French law enforcement units.

Key specifications

- Device integrated into a tear-resistant textile support
- Quick attachment to two shield sizes
- Removable charging system
- Remote control operable while wearing gloves
- White or green LEDs

P67 rated

22000 lumens - 48 LEDs

Tear-resistant mounting

Strobe and continuous modes
