FLASH-PROX

PERSONAL PROTECTIVE LIGHTING DEVICE

weartronic by NICOMATIC

PROTECT

Dazzle to maintain a safe distance

FLASH-PROX is a compact lighting device designed to provide additional protection for professionals facing threats at close range.

Featuring four high-intensity LEDs integrated directly into a textile support, FLASH-PROX produces a temporary dazzling effect while preserving the operator's freedom of movement.

Light-based protection always within reach

When a threat emerges at close range in low-light conditions, rapid response is essential.

Attached to a sleeve, vest or other textile equipment, FLASH-PROX can be activated with a simple gesture.

A lighting solution designed to complement existing protective equipment.

Key specifications

- Light output: 1,200 lumens
